*I teach Relay the Deucey from here as:  
dancers who go down the side, circulate 1/3,  
in stead of a 1/2. Then another 1/3 circulate.  
So, 2 dancers actually never get into the  
centre wave. They are the dancers in the  
centre of the original wave who are facing  
OUT. After the first trade, they go down the  
outside – first circulate 1/3, then another,  
and then move up to the end of the nearest  
wave*
