

DANCING WITH FRACTIONS

Presentation to OACA, March 3, 2013

Wendy VanderMeulen

Before doing anything with Fractions, dancers need to know where they are going NORMALLY. Then, walk them through; for example, if you're doing a Split Circulate $1\frac{1}{2}$ from normal waves, have them do a few normal Split Circulates. Then stop them; tell them to picture where they would go to do a normal circulate, and then tell them to go only halfway there. You would have to do this with every new formation from which you plan to call a Half (or Quarter) Circulate. Obviously, in order to fractionalize a call, it has to lend itself to being divided into the appropriate fractions. I.e. you would never ask the dancers to do half of a move that has 3 parts.

<p>PASS THE OCEAN EXTEND SWING THRU $1\frac{1}{2}$ BOYS CIRCULATE GIRLS HINGE CENTRE 2 GIRLS TRADE CENTRE GIRL RUN GIRLS BEND THE LINE THOSE WHO CAN SINGLE HINGE OTHERS PARTNER TRADE $1\frac{1}{2}$ BOYS CIRCULATE BOX GNAT RLG</p>	<p>HEADS SLIDE THRU U-TURN BACK SLIDE THRU LOAD THE BOAT CENTRES CLOVERLEAF NEW CENTRES PASS THRU SINGLE CIRCLE TO A WAVE SPLIT CIRCULATE $1\frac{1}{2}$ LADIES IN THE WAVE, TRADE IN THE WAVE, SWING THRU OUTSIDES FACE IN IN THE WAVE TURN THRU A.L.</p>
